SUMMARY

Enterprise SaaS leader with 7+ years of experience turning customer challenges into better products, more intuitive user experiences, and measurable business outcomes. Brings hands-on experience across AI-powered sales enablement, Digital Sales Rooms, and the full customer journey from discovery through adoption. Experienced partnering with C-level executive stakeholders while building customer programs across North America, EMEA, and APAC.

PROFESSIONAL EXPERIENCE

Bigtincan, Remote **Aug 2020 – September 2026**

Head of Professional Services (Jul 2025 – Present)

- Partnered with Sales leadership and C-level executives to identify customer needs and develop new services offerings, generating $700K+ in new revenue opportunities.
- Built Sonny, an AI-powered implementation copilot that consolidated product knowledge and automated repetitive workflows. Began expanding adoption across consultants, with a roadmap for automated scoping, customer provisioning, and personalized Digital Sales Rooms.
- Reduced enterprise onboarding time by 30% by identifying friction in the customer experience and redesigning implementation workflows, freeing 300 consulting hours annually.
- Led strategic enterprise deployments representing $4.6M in TCV, using firsthand customer insights to identify product gaps, adoption barriers, and opportunities for improvement.
- Scaled a global team from 4 to 15 consultants while improving delivery consistency and Professional Services margins by 15%.

Manager of Customer Success and Onboarding Strategy (Jan 2024 – Jul 2025)

- Led onboarding strategy across 300+ enterprise deployments representing $26M+ in TCV, identifying opportunities to simplify customer experiences and accelerate time-to-value.
- Reduced onboarding time by 22% by identifying recurring customer pain points and redesigning implementation workflows, playbooks, and self-service resources.
- Automated customer provisioning and deployment processes, eliminating manual handoffs and freeing 500+ hours annually while improving the customer experience.
- Led complex implementations for 100+ organizations, including 15+ Fortune 100 and Fortune 500 companies, translating business needs into scalable solutions and successful product adoption.
- Managed and developed a team of four, improving delivery consistency and building repeatable processes to support enterprise growth.

Senior Customer Success Manager (Jul 2022 – Jan 2024)

- Managed a $5M+ enterprise portfolio, using customer feedback and adoption trends to identify product gaps, improve user experiences, and uncover growth opportunities.
- Partnered with Product and Engineering to translate customer needs into roadmap recommendations and platform usability improvements.
- Generated approximately $500K in expansion ARR by identifying unmet customer needs and aligning product capabilities with business objectives.
- Led executive business reviews, connecting product adoption and customer feedback to measurable business outcomes and long-term account strategy.
- Mentored 6 Customer Success Managers while maintaining ownership of strategic relationships.

Sales Engineer (Jan 2022 – Jul 2022)

- Influenced $750K+ in new and expansion ARR in one quarter by leading customer discovery and delivering tailored product demonstrations that connected platform capabilities to buyer needs.
- Partnered with Sales and Product teams to identify workflow challenges, translate customer requirements into solutions, and improve the path from product evaluation to adoption.

Customer Success Manager (Aug 2020 – Jan 2022)

- Managed 15 enterprise accounts, using customer feedback and product usage data to identify adoption barriers and improve the customer experience.
- Partnered with Product and Engineering to influence three key feature releases that addressed customer needs and improved enterprise usability.
- Built the company's first scalable customer enablement library, simplifying access to training resources and reducing reliance on manual support.

Seal Shield — May 2020 – Aug 2020

Implementation Manager

- Led enterprise SaaS implementations from discovery through launch, translating customer requirements into intuitive workflows and successful product adoption.
- Redesigned implementation documentation and training resources, reducing content development time by 25% while improving onboarding consistency.

Wyndham Destinations — May 2019 – Apr 2020

Multimedia Specialist, Sales Enablement

- Redesigned the global sales training experience, contributing to a 55% improvement in conversion rates.
- Designed and managed the user experience of a Bigtincan-powered learning platform supporting 3,500+ global users, improving access to sales content and training.
